

How do I use Google Maps to find bus routes?

1. Open Google Maps (www.google.co.uk/maps)
2. Click 'Get Directions' (located top right, next to search bar, blue diamond with white arrow in)
3. Enter your destination.
4. Click on the map or enter your starting location such as a business name, landmark or postal code
5. Choose the transit icon (Car, Bus, Walking, Bike icons)
Choose whether you want to 'Leave now' or 'Depart at' or 'Arrive by' a time and date.
Choose which route by clicking on the map.
6. Click the 'Get Directions' button.

Google will provide up to three trip options with estimated times and step by step trip instructions including walking directions to and from each stop. The trip you choose will show up on the map.
